

Figure 1: Accidents by weather condition

The figure above illustrates the number of accidents in Chicago according to the weather condition. As we can see, weather has no significant effect on the number of accidents (almost 78% of accidents happened in good weather). Please refer to the table below for details about the number of accidents and its corresponding percentage for each weather condition.

Weather	Number of accident	Percentage
Clear	70411	77.9
Cloudy	1918	2.1
Fog	400	0.4
Rain	7996	8.8
Cross Wind	32	0.0
Hail	318	0.4
Snow	3955	4.4
Other	348	0.4
Unknown	5018	5.6
